All: I understand Sherry and Bob have proposed a teleconference for Wednesday, 12 April 2017, 12-1pm Central. Both the EPA contractor and I will be available.

**Call-in number is 866-299-3188. Code is 6 8 2 8 7 7 4 #.**

Proposed agenda includes:

- Utilize the data review of last week to specify locations of additional monitoring wells.
- Discuss how and when to engage with WDNR regarding the new wells.

Please reply with your availability for this proposed meeting. It will be very helpful if all can consider well locations in advance of what I hope will be a decisive conversation. Even better if you can all share those thoughts beforehand, then discuss in detail on Wednesday. Thanks again.
